

Upgrade Information

Release: June 2026

Point of Sale

- Processing a matched adjustment note and searching by product code now responds correctly
- Picking data entry from a quick button now searches for orders correctly

Customers

- Pressing Insert in the Debtor Alter Alternate Delivery Address grid now works correctly
- PBL payments in multistore systems now share to all branches

Products

- A cosmetic issue in Stocktake entry where the last adjustment information overlaps has been corrected

Payroll

- Employer Contributed Superannuation Summary now prints as expected

System

- Pricing updates to Sympac Max has been made more efficient, this will result in less delays between adding online access for a customer and the pricing being available online
